Summary

Highly motivated college student looking to gain experience in the professional world. I'm proficient with both Windows and Linux operating systems. I have a strong understanding of Microsoft office as well most Linux utilities.

I enjoy learning about new technologies and programming through practical application. I currently run and maintain a home server that hosts my personal website along with cloud storage and gaming servers. I also enjoy playing guitar and writing music when there is spare time.

Experience

Fulfillment Center Warehouse Associate

Amazon Warehouse • Syracuse, NY

06/2023 - Present

Assisted in the unboxing and inducting of products into the warehouse through the use of specialized equipment and software. Occasionally had to troubleshoot or assist in the troubleshooting of issues at work stations such as: scanner gun issues, keyboard and mouse issues, sensor alignment, tote jams.

Package Handler

FedEx Ground • East Syracuse, NY

11/2021 - 06/2023

Assisted in the unloading and loading of packages to and from delivery vehicles. Job duties consisted of: scanning, moving, and loading boxes to and from the correct truck with and without direction.

I was also a member of the warehouse safety committee. responsible for making sure that work areas are in safe working condition, egress zones are clear and other package handlers are using safe lifting techniques.

Assistant Director

Chick-fil-A Restaurants • Spring, TX

11/2016 - 09/2019

Managed front of house staff in a fast-paced restaurant environment.

Job duties consisted of: receiving and handling guest complaints, running shift, answering phone calls, handling money, accepting deliveries and closing or opening store.
